Dear colleagues, dear friends,

It is with great pleasure that we announce another exciting Winter Meeting of the Working Group Interventional Cardiology of the Swiss Society of Cardiology, which will take place on 22 and 23 January 2027 at the Best Western Premier, Hotel Beaulac, in Neuchâtel.

We will continue our long-standing tradition to primarily focus on presentations of complication cases from all regions of Switzerland, considering both coronary and structural interventions. We kindly ask all 12 presenters to show complications with educative value and a clear teaching point, rather than scholastic interventions or heroic actions. The goal is to share knowledge and experience when facing adverse conditions for the benefit of our patients. Please email a short description of your cases to philipp.hoigne@hin.ch and Stephane.Fournier@chuv.ch. To follow our tradition, the best three presentations will be awarded.

As a second highlight of the meeting, we have invited **Stephan Siegrist** as the **keynote speaker.** Stephan Siegrist is a world-class, multidisciplinary elite mountaineer from the canton of Bern. He is best known for challenging first ascents and expeditions in the Alps, the Himalayas, Patagonia, and Antarctica. He has made first ascents on all seven continents and has climbed the Eiger North Face more than 40 times. In the mountains and in the cathlab: critical decisions sometimes have to be taken under time pressure – we can learn from the other.

On **Saturday morning,** we are offering again a **radiation protection course** from 8:00 a.m. to 9:30 a.m. Two radioprotection credits will be awarded to all participants of this session (separate attendance list).

Last but not least, there will also be many relaxed moments: two quiz sessions, the announcement of this year's winner of the Working Group's Abstract Award, and of course the dinner in the restaurant "Du Peyrou" near our hotel, with the privilege of valuable moments spent between colleagues and friends. The Winter Meeting will serve, as every year, to exchange ideas in a relaxing and enjoyable atmosphere.

Please do not forget to confirm your participation and to send us interesting and challenging cases.

We look forward to seeing you all in Neuchâtel.
